# Case Summary

As at January 2024

Active Cases	Re-integrated Cases	Babies Re-integrated	Babies at the safe house
8	28	25	2

Through each challenge conquered and triumph celebrated, our dedication to fostering resilience, strength and lasting change has remained our driving force.

At just fifteen, Charity's\* innocence was brutally shattered. She was raped by a relative despite her mental illness. She was later referred to Kimbilio Safe House, where she found solace, care and strength amid the storm.

It wasn't easy at first. The baby growing inside her was a constant reminder of the horrific ordeal she went through. "Aunty, why did that person do this to me?" She would ask one of the care mothers.

Charity's\* condition was complex; there was a delicate balance between her age, fragile mental state and pregnancy. Considering the risks of normal delivery, the doctors opted for a caesarean section.

On the appointed day, she was admitted to the hospital. As they prepared to wheel her into the theater, she raised her voice, refused anesthesia and declared that she was willing and able to go through with a normal delivery. True to her words, she delivered a boy who was named Emmanuel, signifying God's presence.

## A Surprise Arrival: Baby Summit's Birth

One early morning, Hannah started feeling pain because her baby was coming. Elizabeth, the care mother, realized the urgency of the matter and quickly called a taxi so that they could head to the hospital.

But things happened faster than they thought. Hannah's\* labor pain intensified. Elizabeth had to make a big decision quickly to keep Hannah\* and the baby safe. In a brave and courageous moment, Hannah\* had her baby right there in her room at the hostel.

The baby was named "Baby Summit," after the East African Leadership Summit that was happening at the YFC Kizazi Sasa Campsite, which is next to Kimbilio Safe House. They later went to the hospital, where the doctor checked both Hannah\* and Baby Summit and gave them a clean bill of health.

At Kimbilio, Hannah\* grew closer to the Lord through intentional discipleship. She also gained valuable skills in beadwork, tapestry, entrepreneurship, and computers. She has now transitioned back to her family with the dream of starting a grocery shop.

We thank God for Hannah\*, Baby Summit and the care mothers who look after the teen moms.

# MAJOR HIGHLIGHTS

## **Introduction.**

Crisis Pregnancy Ministry is a non- profit Christian organization under Youth For Christ Kenya. It was established in 1989 as a counseling center in response to the growing need of women, men and families who found themselves in crisis pregnancies. Kimbilio Shelter was later launched in the year 2022 in May as a safe house for the teenage mothers.

# PROJECT UPDATE.

- **Active and Re-integrated Cases.**

Within our realm of active and reintegrated cases, we've had the privilege of nurturing 36 teen mothers in our safe house. It's with immense gratitude that we share the uplifting news: 28 of these courageous individuals have completed our transformative programs and have joyfully reunited with their families, embodying the essence of resilience and renewal. Presently, we extend our unwavering support to 8 young mothers who are embracing our program within the safety and warmth of our sanctuary, each step forward a testament to your invaluable support and compassion.

## • **Babies Report.**

By the grace of God and your steadfast support, our safehouse has become a sanctuary where 27 precious babies have been nurtured. Of these, 25 have already been re-integrated into their loving homes. Presently, 2 adorable miracles continue to bless our safehouse with their presence. We celebrated beautiful baby dedication ceremonies, where each tiny life was committed to Christ amidst prayers and blessings from their teen mothers.

## • **Skills training and Educational Empowerment.**

Our efforts have been nothing short of transformative. Through daily craftwork sessions, our teen mothers are honing their talents, crafting market-worthy products that recently captivated audiences in the Netherlands during the General Assembly. In addition, they engage in weekly computer classes and receive specialized business training, earning certificates that validate their newfound skills. The impact is profound: three teen mothers have bravely returned to education, with one pursuing university studies and two enrolled in high school. Furthermore, we've launched a mobile salon initiative, empowering a young mother to care for her child while pursuing her passion.

# A CELEBRATION OF SUPPORT AND GENEROSITY

As a Ministry, we extend our sincerest gratitude for your steadfast support, which has been instrumental in transforming the lives of teen mothers in our community. Your generosity and belief in our mission have empowered us to provide vital resources, guidance, and opportunities to the teen mothers. Through your unwavering dedication, you have helped us create a brighter future for countless individuals, instilling hope and inspiring positive change. Thank you for being champions of our cause and for making a meaningful difference in the lives of so many.
